PROFESSIONAL PROFILE

Experienced Senior Java Full Stack Software Engineer with a strong focus on backend architecture and development. I have demonstrated leadership skills, fostered innovation, and successfully delivered scalable, fault-tolerant, complex applications using Java and associated technologies. I am highly regarded for my understanding of software architecture and my commitment to staying up to date with the latest technologies.

WORK EXPERIENCE

Jan 2024 - Present

Senior Software Developer

Visma Amplio Ltd. (Helsinki, Finland)

Project: Fikuro ERP

Description: Fikuro ERP serves SMEs in Finland, it allows users to record production, do warehouse transactions, create sales offers, sales orders and purchase orders, send invoices to various FMS systems and keep track of the stock.
